

LEADERSHIP DEVELOPMENT RECIPE

LEADERSHIP AWARENESS

1

One Part of Self Awareness

Understand your strengths & weaknesses. Are you aware of your personality traits, values, and how stress affects your behavior?

2

Blend with Team Awareness

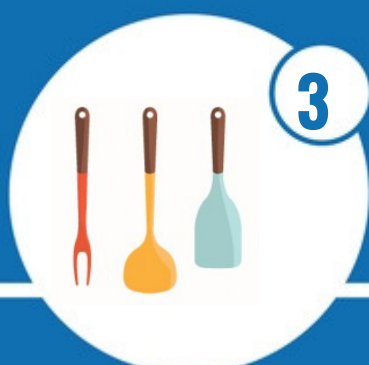

Know and understand your team: dynamics, blind spots, decision-making process.

4

Mix in some Business Awareness

Developing business acumen and understanding your industry's key metrics are crucial for success.

3

Combine with Organizational Awareness

To execute effective decisions you must understand cross functionality and your corporate culture.

5

Add Dash of Knowles

Adult learning is not about theory, it should be experiential and relevant.

6

And a Pinch of your Own Organization

Add your company's unique view about Leadership Development.
